

Project Report

Week 3

Submitted By - Ankit Nimje

- In this attempt, I have improved my previous implementation of a 3D Snooker Table. Some of the improvements is listed below
- Added Snooker balls for better looks.
- Added rotate and translate function with mouse movement.
- Though there are few glitches, I will try to improve it in future submissions.
- In future attempts, I will try to add functionality with slider to operate rotate, translate and other functions along with other environmental features.
